

CSSS-040100 Fire Extinguisher Cabinet, Surface Mounted, Stainless Steel

Shown with Oval model 10J-ABC fire extinguisher (sold separately).

Application: Surface mounted stainless steel cabinet for use with Oval Model 10J-ABC low-profile fire extinguisher (sold separately).

Mounting: Cabinet is surface mounted on wall (mounting hardware not included). Installation does not require cutting into or modifying wall, making it the best option for retrofit applications.

Accessibility: Cabinet complies with 4" (102mm) limit for protruding objects as required by the Americans with Disabilities Act, 2010 ADA Standards for Accessible Design, International Building Code and ANSI/ICC A117.1.

Cabinet: Fully welded 16 gauge stainless steel with a #4 polished finish.

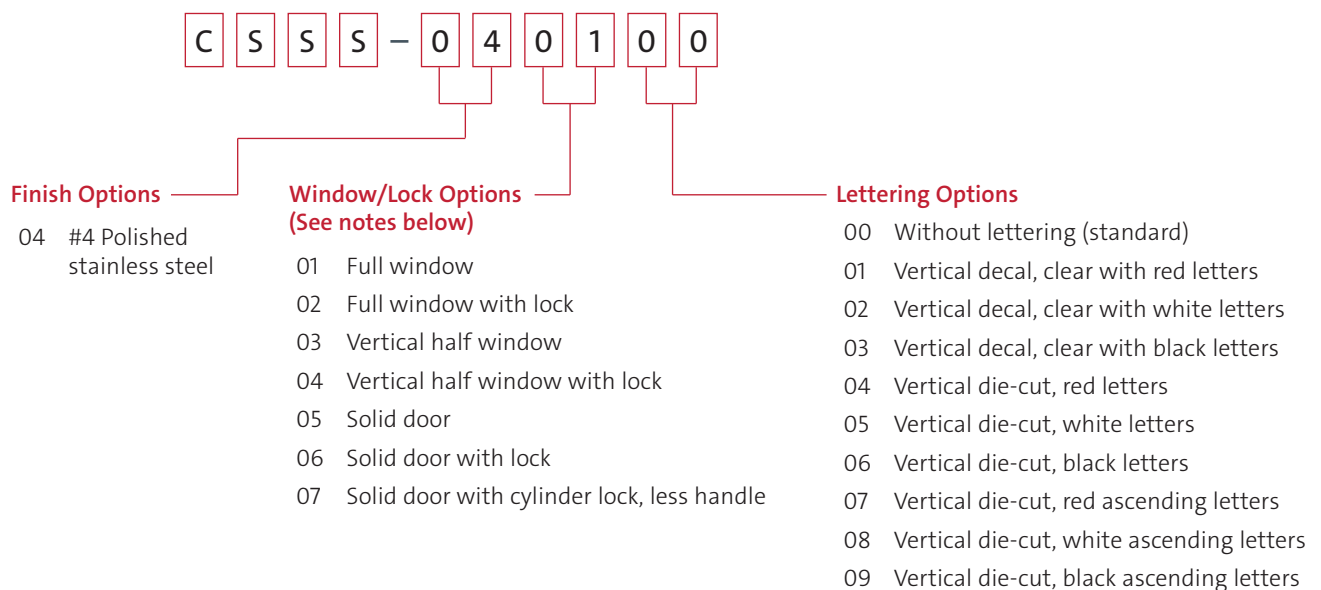

Tub: 22 gauge stainless steel tub.

Door: 16 gauge stainless steel door with continuous stainless steel piano hinge. Door has 1-1/4" (32mm) trim, (2) self-adjusting roller catches and black plastic recessed handle. Door opens 180 degrees. Cabinet is reversible so handle can be on either left or right side.

Window/Lock: Furnished with full acrylic window and without lock as standard. See below for additional window and lock options.

Lettering: Furnished without lettering as standard. See below for lettering options.

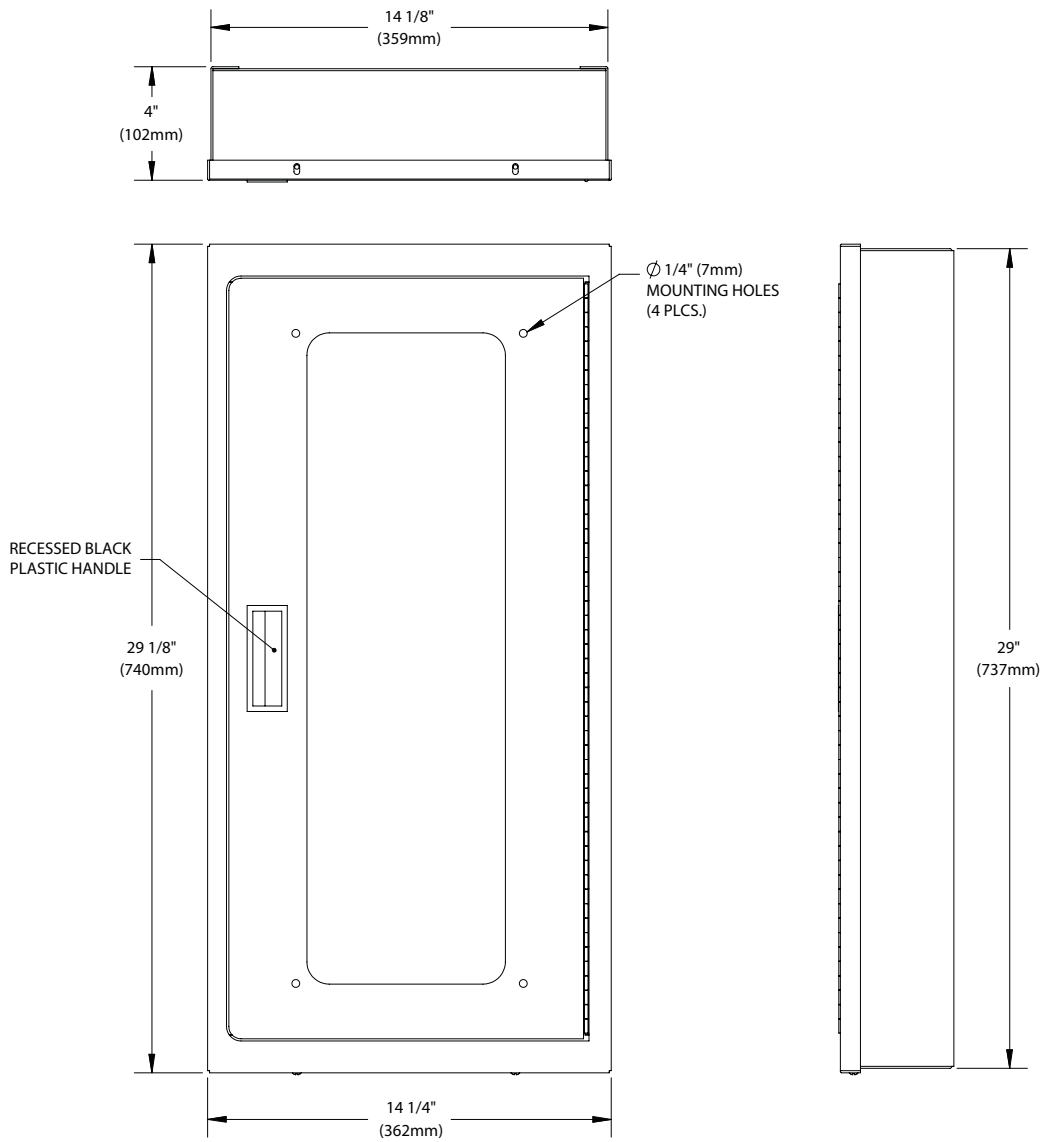

Ordering Information

Notes:

- Standard window is clear acrylic. For tempered glass window, add prefix "G" in place of "0" above.
- Lock permits opening in case of fire by pulling firmly. Breaking glass to open is not required.
